OFFICE TEAM MEETING · NOVEMBER 2026

Inspection Findings

Offering current customers the fix for what their tech found.

WHAT IT IS

Nothing is changing. It's just automated.

1

Tech posts

Photos and notes from a customer's home in #inspection-findings.

2

8 AM next morning

The automation checks the account and prices the plan that fixes it.

3

Customer gets the quote

Email with photos and a PDF, and a text at 10 AM, signed by the tech.

4

Task for Steve B

A follow-up task, due 1 PM, with everything you need for the call.

Same services and same plans. We're offering them to current customers, inspection customers and one-time customers in an automated way. **The office books and closes, like always.**

WHERE IT SHOWS UP

Three places to look

Tasks

- Type: Bid Follow-up
- Assigned to Steve B
- Due 1 PM the day the quote goes out
- Saturday quotes are due Monday

Replies

- Texts: the ATS Texting inbox (same number customers know)
- Emails: office@

Communications tab

- Entries starting **[INSPECTION FINDINGS]**
- The exact text and email sent
- Plan, price, credit and when it expires

THE CUSTOMER SAID YES

No call needed. Book it and reply with the date.

- **Set up the service** at the quoted price. Enter the lower price (the credit is already taken off).
- **Sooner is better.** Pick the first good day.
- **Reply to their text or email** with the day it's on the schedule.
- **Note it in the task** and close it.

Example reply

"Great, Jane! You're on the schedule for Tuesday, Nov 17. Dustin will see you then."

WORKING A TASK

Check, call, note, close

1. Check for a YES first. If they already said yes, book it, reply with the date, close the task.

2. Call the customer. No answer: leave a voicemail, note it in the task, close the task.

3. You talked to them: note what happened (closed or not, and why) and close the task.

What the task looks like

```
Customer ID: 12345
Jane Sample
(828) 555-0100

Found by Dustin on Thu, Nov 12:
Carpenter bee holes, 4 of them, above the back
deck.

Customer notes:
Wants it done before the 20th.

Quote:
HomeShield Signature
$174 to start, then $44 a month.
No annual commitment: $224 to start.

Credit: $173, good through Feb 11.
(50% off because they have Critter Control.)
```

Copy the customer ID into Briostack search to open the account.

THE PITCH

Lead with the tech and what they found

"Hi Jane, this is Steve with Catchy Pest Solutions. Your technician **Dustin** wanted me to give you a call. He did a free inspection while he was there, and everything looks good except he did see signs of **carpenter bees** above your back deck. I have a quote for you.

The normal price is **$347**, but because you're a current customer you have a **$173 account credit**, so it's **$174** to get started. That credit is good for 90 days."

THE CREDIT METHOD

It's an account credit, not a discount

- **Say the dollars,** not just the percent: "a $173 credit", not "50% off".
- **Call it a current customer account credit.** It's theirs, and it expires.
- **Good for 90 days.** The task and the Communications entry show the exact date.
- **It isn't entered in Briostack.** Honor it at booking by entering the lower price.

Inspection / Consultation and One Time Service customers

Same policy: what they paid for that visit becomes a credit toward the plan. Example: they paid $247, so the $447 Critter Control fix is **$200**.

NEW MULTIPLE-SERVICE PRICING

Customer has another active plan: 50% off the initial

ADDING	NORMALLY	CREDIT	THEY PAY	MONTHLY (NORMALLY)
HomeShield Signature	**$347**	**$173**	**$174**	**$44 ($59)**
Critter Control, with exclusion	**$647**	**$323**	**$324**	**$34 ($49)**
Critter Control, no exclusion	**$447**	**$223**	**$224**	**$34 ($49)**
Carolina TermiteShield (1,200-3,000 sq ft)	**$797**	**$398**	**$399**	**$19 ($29)**

12-month plan prices. The initial fee covers the first 3 months and comes with a 3-month warranty. No annual commitment: $50 more on the initial, same monthly.

THE OTHER TWO PRICES

No other active plan

Returning customer: 10% off the initial

PLAN	CREDIT	THEY PAY
Signature	**$34**	**$313**
Critter, with exclusion	**$64**	**$583**
Critter, no exclusion	**$44**	**$403**
TermiteShield	**$79**	**$718**

Regular monthly fee. A "complete" plan doesn't count as active.

Inspection / One Time Service customers

Regular price minus what they paid for the visit (usually $149 or $247). Regular monthly fee.

- Signature: $347 - $149 = **$198**
- Critter: $647 - $247 = **$400**
- TermiteShield: $797 - $149 = **$648**

CANCELLATIONS

If a customer cancels one plan, the other goes back to its regular price

- The lower monthly fee only holds while they have both plans.
- Example: they cancel Critter Control, so Signature goes from **$44** back to **$59** a month.
- **Change it by hand** in Briostack as part of the cancellation procedure.

Monthly fees

- Signature: $44 → $59
- Critter Control: $34 → $49
- TermiteShield: $19 → $29

OTHER TASKS YOU'LL SEE

When the automation can't price it

Business

Commercial is custom. You get a task to price it and call. Nothing was sent to the customer.

Quote request, other services

Signature, Critter Control and TermiteShield requests are quoted automatically, like any finding. For anything else (mosquito, bed bugs, a one-time treatment) you get a task to call and quote it.

Possible bats

Rare. The customer gets the droppings quote, and a message in #office-only asks for a custom bat quote.

"Customer notes" on a task are the customer's wishes from the tech (a day, a deadline, who to call). Use them when you book.

STARTING THIS WEEK

Questions?

YES: book it and reply with the date. No answer: voicemail, note, close.
